# Key Takeaways

## ***About This Report***

On February 2, 2026, an internal review was completed of Woodburn's Flock Safety automatic license plate recognition (ALPR) system, hereafter abbreviated as "Flock", to obtain insights on its use, both internally and by other law enforcement agencies, as well as its impact on police investigations.

The window of time captured by the review was **January 15, 2025 – November 13, 2025**, the entire period of search activity on Woodburn's Flock Safety camera system.

## ***When Was Flock Operational in Woodburn?***

Woodburn's first Flock camera was installed and activated on **March 3, 2025**. Accordingly, Woodburn Police officers had access to Flock for **an eight-month period** starting on March 3, 2025, and ending on November 11, 2025, when access was removed.

In this report, "**March 3, 2025 – November 11, 2025**" refers to the availability of Flock to Woodburn Police officers for searching, while "January 15, 2025 – November 13, 2025" refers to the entire period of system activity.

While audit data shows that **outside agencies** conducted searches on Woodburn's Flock network starting on **January 15, 2025**, Woodburn did not have any cameras installed at that time, and was instead included in a broader list of other law enforcement agencies that were being searched together. No targeted searches were conducted on Woodburn's network until **March 11, 2025**, when Woodburn Police officers **did their first test searches** in the Flock system. **Woodburn's second Flock camera** was not installed until **May 26, 2025**.

The Woodburn Police Department gradually rolled out access of the Flock system to its officers following initial training and certification. **By July 12**, or approximately halfway into its eight-month operating period (March 3, 2025 – November 11, 2025), **only 72% of Woodburn's Flock network (18 of 25 planned cameras) had been installed**. New cameras continued to be added throughout the city until **October 1, 2025**, when Woodburn reached a **peak of 23 installed cameras** out of a planned 25 prior to city-wide deactivation.

On **October 23**, Woodburn Police **disabled the National Lookup** feature. Flock access was **disabled for Woodburn Police officers** less than one month later, on **November 11**. **Statewide Lookup** was disabled on **November 13**, and all cameras were **mechanically disabled** the same day.

## **What Data Was Used in This Report?**

The data accessed and analyzed in this report was obtained from the “Event Log”, “Network Audit”, “Organization Audit”, and “Outcomes” sections of the Flock website. The data spanned the applicable time periods listed above.

Additional information was also obtained from local police systems, including:

- Tyler New World LERMS
- Tyler New World Mobile
- Tyler New World Socrata
- Laserfiche

## **How Much Did Woodburn Police Use Flock?**

Over the entire duration that Flock was available to Woodburn Police (March 3, 2025 – November 11, 2025), officers conducted **1533 Searches**, **932 Statewide Lookups** or **National Lookups**, and **13 Visual Searches**. Officers also created **41 Custom Hotlists** and used Flock for **354** (or **18.53%**) of the **1910 total police department's investigations**. Of those 354 investigations that used Flock in some way, **115 stated what the outcome was**, with **70.43% stating that Flock contributed to the investigation**. For the remaining 29.57% of cases, officers explicitly stated that Flock did not contribute to the investigation.

For comparison, an additional analysis was completed using the final two full months of Flock’s operation in Woodburn (September 1, 2025 – October 31, 2025). As Woodburn’s Flock camera program was in its infancy at the time of deactivation, the two-month analysis sought to approximate what a more typical usage might look like with higher officer participation and more cameras installed. In that comparative time frame, officers used Flock for **107** (or **24.04%**) of the **445 total police department's investigations**. Of those 107 investigations that used Flock in some way, **49 stated what the outcome was**, with **61.22% stating that Flock contributed to the investigation**.

The comparatively small adoption rate of Flock to the total number of department investigations can be attributed to a variety of factors, including: (1) the gradual rollout of the program to officers; (2) an incomplete but growing network of cameras; and (3) the incompatibility of the Flock system as an investigative tool with all types of investigations.

## **Arrests, Stolen Vehicle Recoveries, and Drugs**

The use of Flock directly led to **16 arrests**, **9 recovered stolen vehicles** (approximate \$40,000 value), and the seizure of **2.1g of fentanyl**, **15.5g of methamphetamine**, and **2 items of drug paraphernalia**.

## **Criminal Offenses Investigated With Flock**

Regarding crimes, the types of criminal investigations that most benefitted from using Flock were **thefts**, followed by **Unlawful Use of a Motor Vehicle**, **Unlawful Use of a Weapon**, and **assault** cases.

## **Who Benefitted From Flock?**

The majority of victims whose investigations benefitted from Flock **were of Hispanic or Latino ethnicity (68.42%)** and **male sex (59.65%)**. The races and ethnicities used in this report correspond to the federal classifications used by the Federal Bureau of Investigation (FBI) Uniform Crime Reporting (UCR), which are described in the **Methodology** section of this report.

## **Outside Agency Searches on Woodburn's Flock Cameras**

During the entire period of search activity (January 15, 2025 – November 13, 2025), **3,318,618 total searches** were conducted on Woodburn's camera network by **4734 law enforcement agencies** (including by Woodburn Police).

Of those 3,318,618 searches, **0.78%** were conducted by (non-federal) **Oregon** agencies, including Woodburn; **99.04%** by (non-federal) **out-of-state** agencies; and **0.18%** by **federal** agencies. Of note, a reported search of any kind in Flock does not signify that results were found, only that the network was queried for matches. Effective August 8, Flock provided the ability to isolate “Network Audit” data to only those searches that returned results on Woodburn’s network. For the full months of September and October 2025, **less than half of 1% of searches returned any results on Woodburn’s Flock network.**

The overwhelming majority of searches (99.99%) conducted were not exclusive to Woodburn: agencies almost always cross-searched multiple agency networks in addition to Woodburn’s. **Only 306 of the 3,318,618 total searches uniquely targeted Woodburn**, and they were conducted by Eugene Police Department (OR), Springfield Police Department (OR), and Woodburn Police Department.

In 2025, Flock granted broad search capabilities to federal agencies during a trial period, beyond solely the National Lookup feature. **None of the searches conducted by federal agencies targeted Woodburn**, since they conducted broad searches that included numerous other camera networks at the same time. No federal agency searches occurred after June 24, 2025, which likely coincided with the end of that trial period.

## **Did Flock Impact Overall Crime Trends in Woodburn?**

A review of reported criminal offenses showed a **decrease in both reported felony (581) and misdemeanor (1416) offenses in 2025 for the period that Flock was available to Woodburn Police officers**, compared to the same time period in 2024 (felonies: 693; misdemeanors: 1474). Moreover, there was an overall decrease (-10.56%) in reported crime for the full year of 2025 compared to 2024, **even though the volume of calls for service remained level** (16,209 in 2025; 16,199 in 2024). The total number of investigations undertaken by Woodburn Police also decreased by -10.91% from 2024 (3,042) to 2025 (2,710), which corresponds to the decrease in reported criminal offenses. **It is unknown whether Woodburn’s Flock camera system or some other unknown factor, or combination of factors, contributed to the decrease in reported crime.**

## **Successful Use Cases**

**Flock and partner ALPR systems were instrumental** to effecting an arrest, identifying suspects, or obtaining key evidence in certain investigations. Examples include a DV Assault II/Robbery I case where the suspect, the father of the victim's child, severely assaulted the victim and stole her cell phone, but was located and arrested **due to Flock alerting** to his vehicle; a set of Assault II/Hit and Run/Felony Elude investigations, where the suspect drove over his ex-girlfriend with a car and evaded arrest for six months, until a **Flock alert** directly lead to his arrest and the closure of several open investigations; a set of shoplifting investigations culminating in Organized Retail Theft, where a **Flock license plate reading** directly lead to the identification of all three involved suspects, and warrant requests for each; and a felony Hit and Run case where a driver fatally impacted a pedestrian and fled, an **out-of-state ALPR system detected the suspect vehicle** traveling in Idaho, which after suspect interviews lead to the successful location of the suspect's vehicle at a property owned by the suspect in Minnesota. Additional successful use cases are included in this report.

Conversely, **the deactivation of Flock in Woodburn has hindered police investigations**. Examples include a recent homicide where the suspect vehicle could not be tracked or located; a felony Hit and Run of a Woodburn High School student; an armed Robbery of a Woodburn massage parlor; a felony assault that rendered the victim unconscious; and a runaway juvenile who was missing for over a month. Each of the above instances, along with additional examples provided in this report, contained a specific vehicle element that would have been readily searchable in an ALPR system.

This section intentionally left blank

# Glossary

The following are terms and abbreviations used in this report:

## **Terms**

**Alert** An event where a Flock camera identifies a match with certain criteria and notifies officers via SMS, email, or the Flock Safety mobile application. Agencies individually control which alert types are enabled. Examples include: NCIC Category Alerts (such Stolen Plate, Stolen Vehicle), NCMEC Amber Alerts, and Custom Hotlist Alerts.

**Convoy Search** A feature that identifies potential accomplice vehicles based on a license plate search (example: an additional vehicle in organized retail theft). Woodburn's network did not have this feature.

**Custom Hotlist** A custom list comprised of vehicle criteria (such as license plates, or vehicle make, model, or color) that are of interest to an investigation. Once active, Custom Hotlists trigger alerts to specific personnel when a Flock camera identifies a vehicle matching those criteria.

**Event Log** A record of system changes in Flock. Examples include Custom Hotlist creations, user password resets, and network sharing permissions.

**Investigation** In this report, an “investigation” refers to a uniquely generated police case number that requires a formal report from officers. In Tyler New World Mobile, these cases are cleared with code “R1.” For any officer searches where a vehicle was not ultimately located, but the circumstances behind the search would have required a formal report, those instances were still counted as investigations.

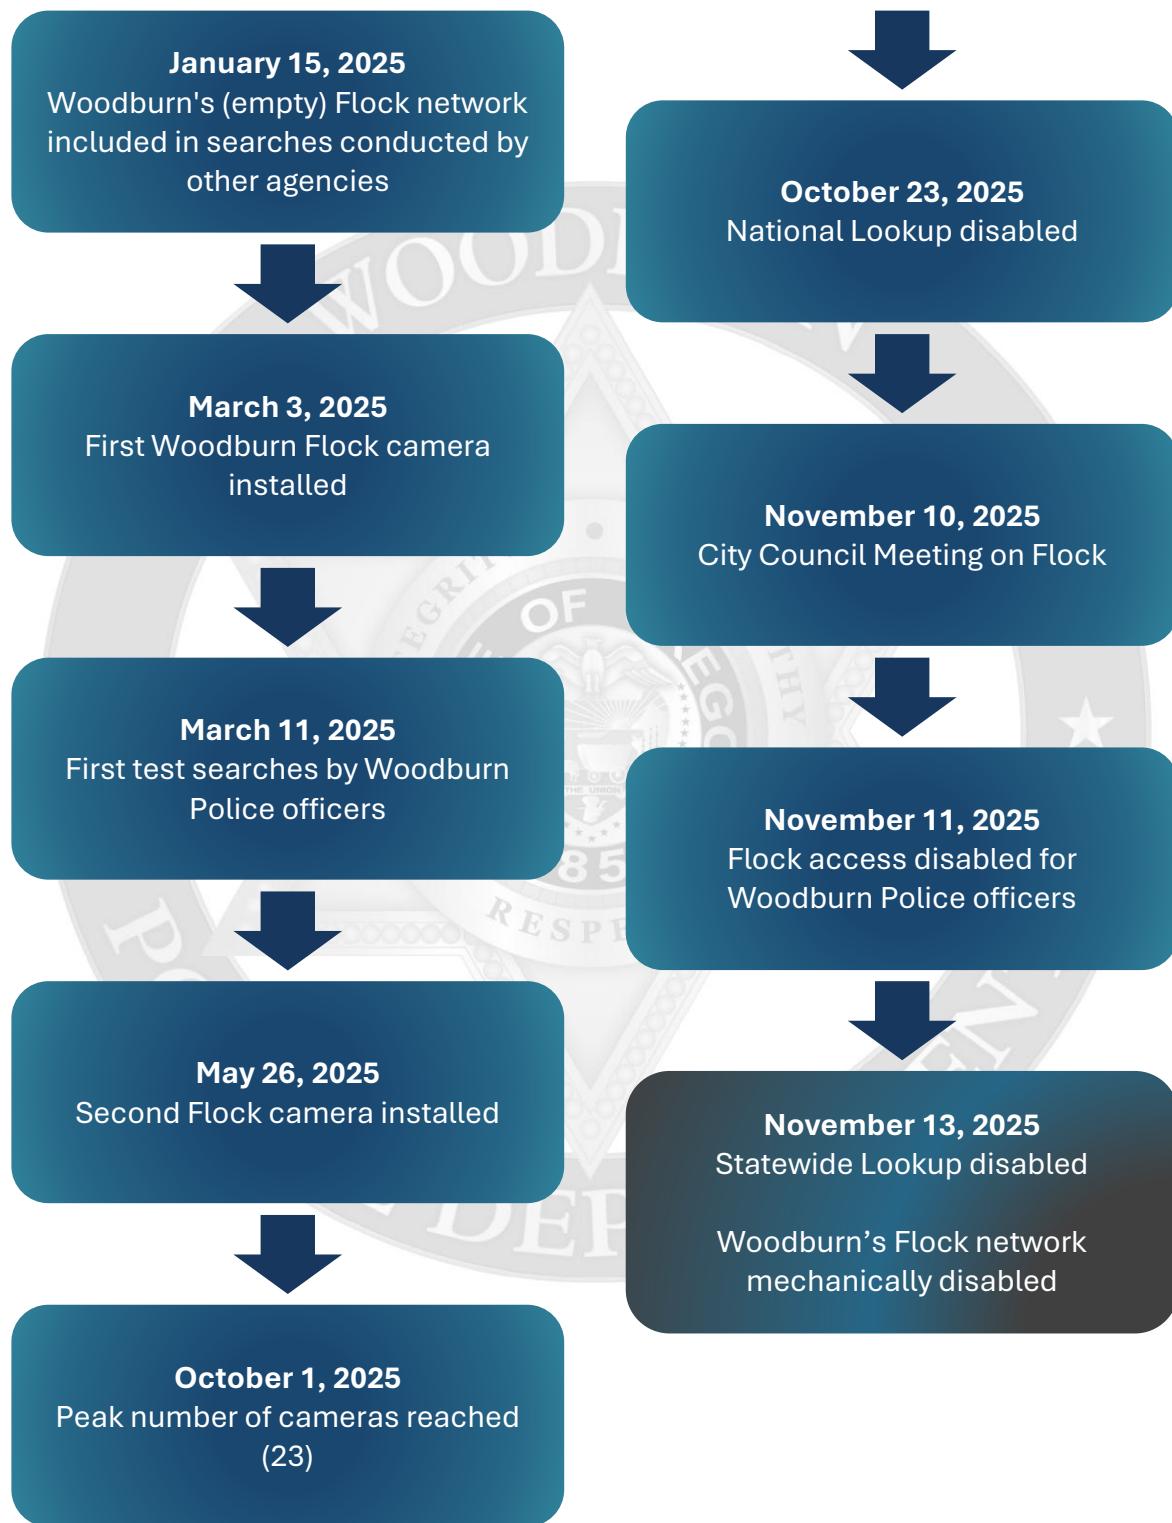

**Laserfiche** A digital system for managing scanned police reports.

<b>Statewide or National Lookup</b>	A search with a specific license plate, either statewide or nationwide. Permissions are all-or-nothing: Only agencies with Lookup enabled can use this feature; in turn, their systems become searchable to Lookups conducted by other agencies. Upon deactivation of Lookup, agencies can no longer do Lookups, nor can they be searched in Lookups conducted by other agencies. Statewide Lookup and National Lookup are separate features that can be enabled or disabled independently.
<b>Network Audit</b>	A record of all search activity on an agency's camera system. It includes searches done by that agency's own personnel and all searches done by other agencies on that agency's system.
<b>Organization Audit</b>	A record of all search activity by an agency's own personnel.
<b>Outcomes</b>	Specific case outcomes added by officers.
<b>Search♦</b>	In this report, a “Search♦” (symbol included to distinguish terms) refers to a specific feature of Flock that allows for a more in-depth search beyond a specific license plate, to include searches of partial plates, vehicle characteristics, or time frames. A Search♦ covers an agency's own network and selected other law enforcement agency networks for which specific 1:1 agency-to-agency permissions have been granted by request. Agencies can also opt in to a broader group (example: a regional drug task force), bypassing individual 1:1 agreements and allowing Searches♦ to be conducted by all member agencies.
<b>Visual Search</b>	A search that compares an uploaded image to images taken by Flock cameras. A Visual Search requires specific 1:1 agency-to-agency permissions.

## Abbreviations

<b>ALPR</b>	Automatic License Plate Recognition
<b>CAD</b>	Computer Aided Dispatch
<b>DUII</b>	Driving Under the Influence of Intoxicants
<b>DV</b>	Domestic Violence
<b>DWS</b>	Driving While Suspended
<b>FBI</b>	Federal Bureau of Investigation
<b>Flock</b>	Flock Safety camera system
<b>LERMS</b>	Tyler New World Law Enforcement Records Management System
<b>MIP</b>	Minor in Possession
<b>Mobile</b>	Tyler New World Mobile
<b>NCIC</b>	National Crime Information Center
<b>NCMEC</b>	National Center for Missing & Exploited Children
<b>NIBRS</b>	National Incident-Based Reporting System
<b>PCS</b>	Possession of a Controlled Substance
<b>Socrata</b>	Tyler New World Socrata
<b>SMS</b>	Short Message Service
<b>UCR</b>	Uniform Crime Reporting
<b>UEMV</b>	Unlawful Entry into a Motor Vehicle
<b>UUMV</b>	Unauthorized Use of a Motor Vehicle

# Timeline of Cameras and Searches

## **When Were Woodburn's Flock Cameras Installed?**

**Table 1** and **Chart 1** show the installation dates for Woodburn's Flock cameras along with the cumulative total of cameras at each moment in time. All cameras became active and searchable immediately after installation.

Woodburn reached its highest number of active Flock cameras, 23, on October 1, 2025. Two additional cameras were in a “proposed/planning” stage awaiting private party permissions, property line verification, and location confirmation from Flock, and thus were not installed before Woodburn’s Flock network was completely disabled on November 13, 2025. Those two cameras are not included in **Table 1** and **Chart 1**.

The July 12 camera installation date (highlighted in bold) can be used to approximate a halfway point of the eight-month period (March 3, 2025 – November 11, 2025) in which Woodburn Police officers had access to Flock cameras. By that halfway point, only 72% of Woodburn’s Flock network (18 of 25 planned cameras) had been installed.

<b>Installation Date</b>	<b>Cameras Added</b>	<b>Total Cameras in City</b>	<b>% Installed of Planned Total (25)</b>
03/03/2025	1	1	4%
05/26/2025	1	2	8%
06/07/2025	1	3	12%
06/19/2025	1	4	16%
06/20/2025	4	8	32%
06/21/2025	6	14	56%
06/22/2025	1	15	60%
06/28/2025	1	16	64%
06/29/2025	1	17	68%
<b>07/12/2025</b>	<b>1</b>	<b>18</b>	<b>72%</b>
07/15/2025	1	19	76%
07/30/2025	1	20	80%
08/14/2025	1	21	84%
08/30/2025	1	22	88%
10/01/2025	1	23	92%

## Size of Woodburn's Flock Network Over Time

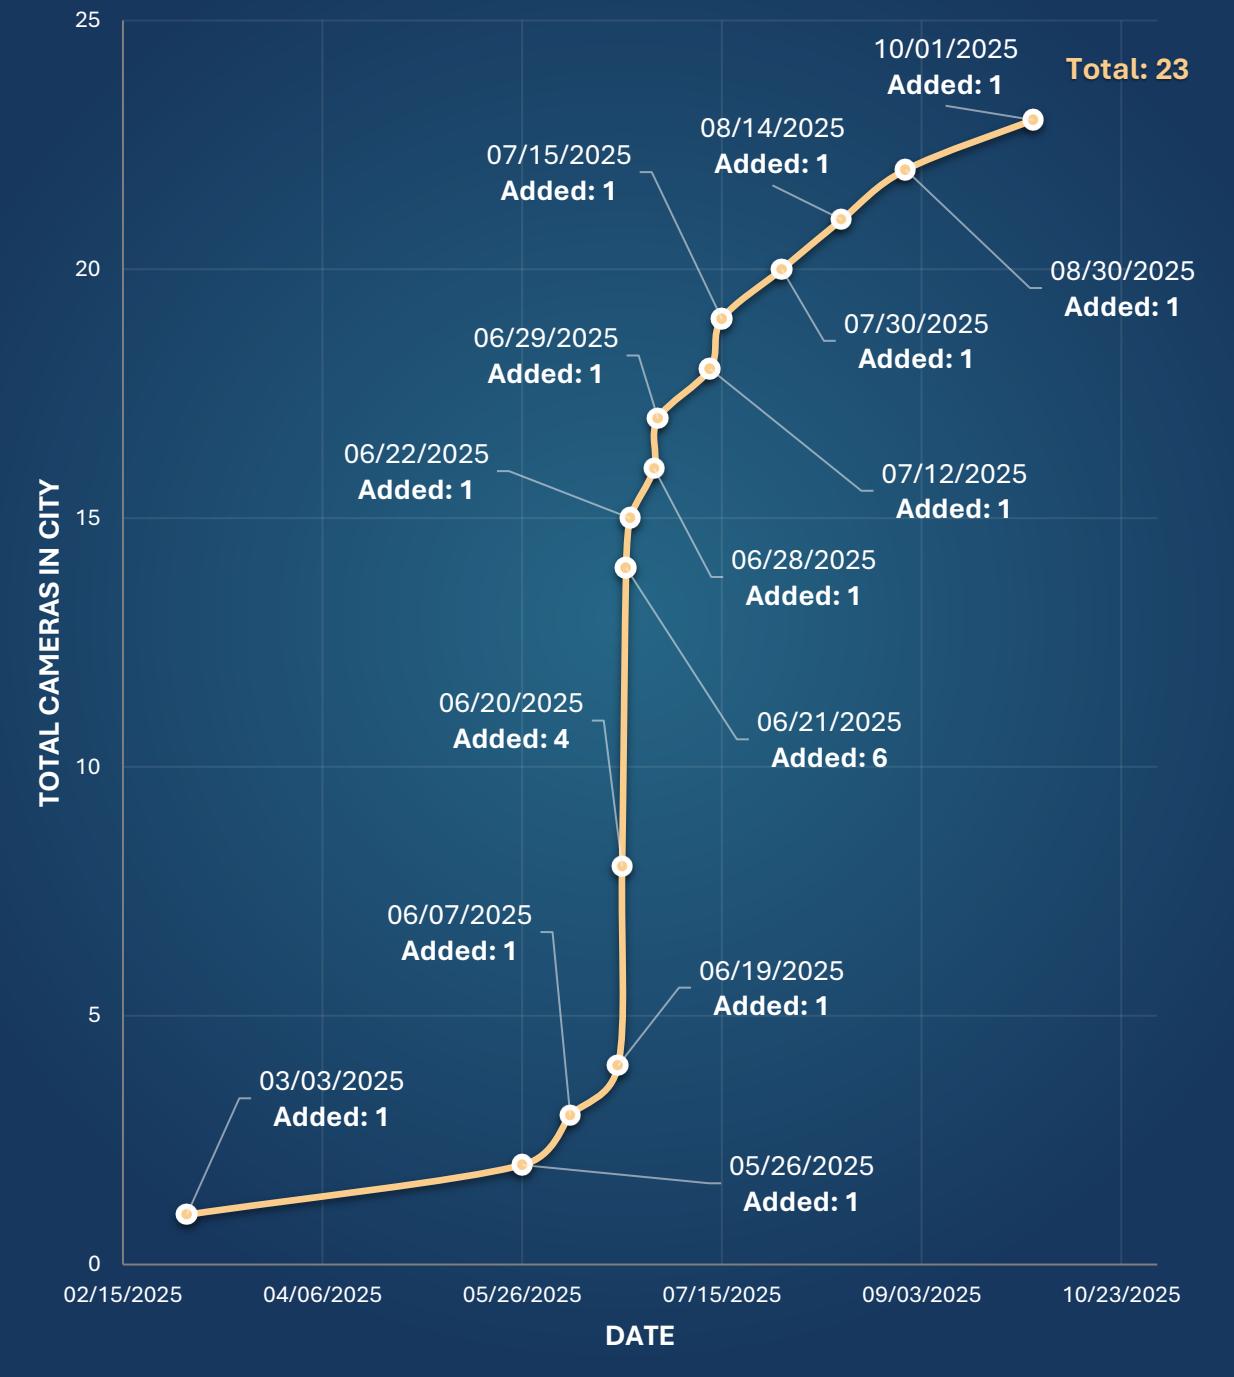

Chart 1. Size of Woodburn's Flock Network Over Time.

# Methodology

## ***Where Was the Data Sourced?***

The data for this project was obtained from the Flock Safety website's analytical and audit tool (<https://analytics.flocksafety.com/>), called "Insights", and included the following subsections: "Event Log", "Network Audit", "Organization Audit", and "Outcomes".

Additional data was obtained from local police systems, including:

- Tyler New World LERMS
- Tyler New World Mobile
- Tyler New World Socrata
- Laserfiche

## ***What Time Periods Does the Data Cover?***

In this report, "March 3, 2025 – November 11, 2025" refers to the availability of Flock to Woodburn Police officers for searching, while "January 15, 2025 – November 13, 2025" refers to the entire period of system activity.

The **Organization Audit Review**, which covers all search activity by Woodburn Police personnel, uses the former time period, while the **Network Audit Review**, which covers all search activity on Woodburn's cameras, including searches from other agencies, uses the latter.

## ***When Was the Data Accessed?***

Data for this report was accessed and downloaded at different times. The download dates and sources of data for specific sections of this report are listed below:

- **Organization Audit Review** (Flock: Insights) November 20, 2025
- **Year-to-Year Comparison: March-October** (Socrata) November 20, 2025
- **Success Stories** (Laserfiche, LERMS, Mobile) December 9, 2025
- **Network Audit Review** (Flock: Insights) December 18, 2025
- **Missed Opportunities** (Laserfiche, LERMS, Mobile) December 19, 2025
- **Year-to-Year Comparison: Year-End Totals** (Socrata) January 16 and 23, 2026

## ***Organization Audit Review: Downloading the Data***

Data for the **Organization Audit Review** was downloaded from the "Event Log", "Organization Audit", and "Outcomes" sections of the Flock Safety website. The "Event Log" and "Outcomes" were included in order to capture Custom Hotlist creations and specific case successes that were manually input by officers, which are not otherwise a part of the "Organization Audit".

Each section was downloaded as separate .csv (comma-separated value) files. For the “Organization Audit”, Flock only permitted data to be downloaded in a maximum of 31-day increments. Consequently, the “March 3, 2025 – November 11, 2025” period used for the **Organization Audit Review** was downloaded one month at a time, even when the beginning or end of a given period contained no information.

### ***Organization Audit Review: Processing the Data***

All downloaded .csv files were then combined into a Microsoft Excel spreadsheet under the below column headings for analysis:

- Date and time of search
- Case number
- Outcome
- Offense
- Number of arrests
- Approximate value of recovered property
- Vehicles recovered
- Firearms recovered
- Drug recovered

The combined data from the “Event Log”, “Organization Audit”, and “Outcomes” sections produced a total of 2805 rows. Each row was individually reviewed to determine which unique police case number (in this report, “investigation”) or set of connected police case numbers applied to it, if explicitly provided by the searching officer. Frequently, officers made several searches for the same investigation at different points in time. Additionally, different officers conducted searches on the same investigation. Consequently, as **Table 2A** shows, although there were 2805 rows of data, only 354 unique investigations (police case numbers) are represented in the data.

For any rows of data where a case number could not be identified from the available information or police reports, a unique identifier was assigned to that row and any adjacent or future rows that shared consistent and similar search criteria.

For any search that involved multiple case numbers, the individual case numbers were later separated for counting as part of the “investigations” total in listed in **Table 2A** and **Table 2B** of this report.

For Custom Hotlist data, any Custom Hotlist creation that was clearly identified as relating to a specific police case number was assigned that number on all applicable rows. In all instances, every investigation represented by a Woodburn a Custom Hotlist was also searched separately by officers in Flock; consequently, Custom Hotlists did not contribute to the total number of investigations. For Custom Hotlist creations or edits that did not contain enough information to identify a police case number, they were counted in the

Custom Hotlist Creations total (**Table 2A**, **Table 2B**) but were not included in the count of investigations.

### ***Organization Audit Review: Determining the Outcomes of Using Flock***

For each unique police case number (or unique identifier) in the Excel spreadsheet, a review of the CAD (Computer Aided Dispatch) and police reports was done. For instances when an investigation involved another law enforcement agency, that agency was contacted to obtain copies of their police reports. Specific mentions of “Flock”, “Woodburn’s license plate reader (LPR) system”, and similar terms were searched for and noted in order to determine what outcome best described the Flock system’s impact on the investigation.

The following section lists the categories used to qualitatively assign an outcome to an officer’s use of Flock, along with an explanation of each category’s meaning.

### ***Organization Audit Review: Flock Outcome Categories***

<b>Add To Custom Hotlist</b>	A vehicle was added to a Flock Custom Hotlist to help with an investigation or for officer safety.
<b>Cleared by Arrest</b>	A Flock search directly contributed to an arrest. (Investigations that used Flock and were eventually closed by arrest, but where Flock did not directly lead to the apprehension/arrest, were not included in this category.)
<b>Cleared by Other Means</b>	A Flock search contributed directly to a case clearance other than arrest (example: a stolen vehicle recovery with no arrest).
<b>In Progress</b>	Not used in this data set
<b>Insufficient Data</b>	A Flock search where the outcome of using Flock was not documented by the officer.
<b>Lead Generated</b>	A Flock search or alert that contributed information to an investigation, even if the investigation did not develop further (example: a Flock search identified a plate, suspect information, direction of travel, or some additional fact or element of data, etc.). “Lead Generated” was used for Flock alerts on a vehicle even if officers were later unable to locate the vehicle.

<b>No Action Taken</b>	Not used in this data set
<b>Other</b>	Not used in this data set
<b>Sent To Field Team</b>	Not used in this data set
<b>Shared with Law Enforcement</b>	A Flock search generated data that was shared with other agencies for their own investigations.
<b>Demo, Test, or Training</b>	A demo, test, or training search.
<b>Unable to Locate</b>	A search was done with Flock and the officer documented that nothing was located. (If Flock alerted to a vehicle but officers could not find it, the Flock use was listed as a “Lead Generated”.)
<b>Warrant Issued</b>	A Flock search contributed directly to an officer submitting for a warrant.

The above categories are all native to Flock Safety software, with the exception of “Insufficient Data” and “Demo, Test, or Training”, which were added to help with data labeling. Of note, Flock uses the term “disposition” to describe the outcome category. In this report, the disposition is referred to as the “outcome”, “result”, or “contribution” to an investigation.

### ***Organization Audit Review: September and October 2025 Comparisons***

Existing data from the **Organization Audit Review** was later filtered and re-analyzed to create an additional comparison between the entire period of the availability of Flock to Woodburn Police officers, with the last two full months of its operation (September and October 2025). No additional data downloads were required to complete this analysis.

### ***Other Metrics: How Data Was Obtained***

Data for arrests, recovered stolen property and drugs, criminal offenses, and victim demographics in the **Other Metrics** section was obtained by reviewing officers’ formal reports in Laserfiche. For instances when an investigation involved another law enforcement agency, that agency was contacted to obtain copies of their police reports.

### ***Other Metrics: Race and Ethnicity Classifications***

The race or ethnicity categories listed in the **Other Metrics** section correspond to the federal classifications used by the FBI’s Uniform Crime Reporting (UCR) standard. Individual police departments submit crime data into FBI’s National Incident-Based Reporting System (NIBRS), where it is then aggregated nationally. Below are the race and ethnicity

classifications according to the 2025 NIBRS User Manual. Bold text formatting has been added for readability:

Race:

**“White**—A person having origins in any of the original peoples of Europe, the Middle East, or North Africa

**“Black or African American**—A person having origins in any of the black racial groups of Africa

**“American Indian or Alaska Native**—A person having origins in any of the original peoples of North and South America (including Central America) and who maintains tribal affiliation or community attachment

**“Asian**—A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian subcontinent including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam

**“Native Hawaiian or Other Pacific Islander**—A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands, e.g., individuals who are Carolinian, Fijian, Kosraean, Melanesian, Micronesian, Northern Mariana Islander, Palauan, Papua New Guinean, Ponapean (Pohnpeian), Polynesian, Solomon Islander, Tahitian, Tarawa Islander, Tokelauan, Tongan, Trukese (Chuukese), and Yapese.”

UCR also includes an **Unknown** race category.

Ethnicity:

Ethnicity is categorized by either **Hispanic or Latino, Not Hispanic or Latino, or Unknown**. Per FBI’s UCR Manual:

“The ethnic designation of Hispanic or Latino includes persons of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race.”

### ***Network Audit Review: Downloading and Processing the Data***

Data for the **Network Audit Review** was downloaded via .csv files from the Flock website's "Network Audit" section in month-by-month increments. For this section, the applicable time frame was January 15, 2025 – November 13, 2025.

Due to the large amount of data contained in the "Network Audit", the row count (3,317,597 rows) exceeded Excel's row limit (1,048,576 rows). Each .csv file was imported into a Microsoft Access Database, then sorted using Excel PowerPivot. Additionally, custom queries were created in Access to filter and sort the large amount of data. Of note, a reported search of any kind in Flock does not signify that results were found, only that the network was queried for matches

Effective August 8, Flock provided the ability to isolate "Network Audit" data to only those searches that returned results on Woodburn's network. The feature is accessible via a checkbox toggle on the Network Audit web page. New .csv files were downloaded with the checkbox appropriately selected or deselected, then imported into separate Microsoft Access Databases for querying and compiling into **Table 11**.

### ***Trends in Reported Crime: Downloading and Processing the Data***

Data for the **Trends in Reported Crime** section of this report was obtained via Socrata, and downloaded as .csv files, which were then imported into Excel for processing.

### ***Success Stories, Missed Opportunities: Researching Police Reports***

Data for the **Success Stories** and **Missed Opportunities** sections was pulled from Laserfiche, Tyler new World LERMS, and Tyler New World Mobile, and was combined with the small set of results that officers manually input into the "Outcomes" section of the Flock website.

This section intentionally left blank

# Organization Audit Review

## ***What's Included in the Flock "Organization Audit"?***

The Flock "Organization Audit" includes all search activity by Woodburn Police personnel.

## ***Additional Data Included in This Section***

Data for the **Organization Audit Review** includes the Flock "Event Log", "Organization Audit", and "Outcomes". The "Event Log" and "Outcomes" were included in order to capture Custom Hotlist creations and specific case successes that were manually input by officers, which are not otherwise a part of the "Organization Audit".

## ***Comparisons***

Several tables and charts in this section are presented as a set, comparing overall totals to the last two full months of Woodburn Police's access to Flock (September 1, 2025 – October 31, 2025). As Woodburn's Flock camera program was in its infancy at the time of deactivation, the two-month analysis sought to approximate what a more typical usage might look like with higher officer participation and more cameras installed.

## ***Total Searches by Woodburn Police***

**Tables 2A** and **2B** below show metrics for all searches and Custom Hotlist creations done by Woodburn Police officers:

Category	Qty. Authentic	Qty. Tests	Total
Custom Hotlist Creations	41	2	43
Statewide Lookups, National Lookups	932	11	943
Searches♦	1,533	139	1,672
Visual Searches	13	0	13
Investigations Searched	354		

*Table 2A. Total Searches by Woodburn Police (Total Overall).*

Category	Qty. Authentic	Qty. Tests	Total
Custom Hotlist Creations	1	3	4
Statewide Lookups, National Lookups	320	9	329
Searches♦	353	46	399
Visual Searches	12	0	12
Investigations Searched	107		

*Table 2B. Total Searches by Woodburn Police (September – October 2025).*

## **How Many Woodburn Police Investigations Used Flock?**

**Table 3A, Chart 2A** show a comparison between the total number of investigations generated by the Woodburn Police Department from March 3, 2025 – November 11, 2025, to the number of investigations that used Flock in that same period.

**Table 3B** and **Chart 2B** show the number of Woodburn Police investigations that used Flock from September 1, 2025 – October 31, 2025.

The comparatively small adoption rate of Flock to the total number of department investigations can be attributed to a variety of factors, including: (1) the gradual rollout of the program to officers; (2) an incomplete but growing network of cameras; and (3) the incompatibility of the Flock system as an investigative tool with all types of investigations.

Category	Qty.	%
Used Flock	354	18.53%
Did Not Use Flock	1556	81.47%
<b>Total</b>	<b>1910</b>	<b>100.00%</b>

*Table 3A. Investigations That Used Flock (Total Overall).*

Category	Qty.	%
Used Flock	107	24.04%
Did Not Use Flock	338	75.96%
<b>Total</b>	<b>445</b>	<b>100.00%</b>

*Table 3B. Investigations That Used Flock (September – October 2025).*

## Investigations That Used Flock (Total Overall)

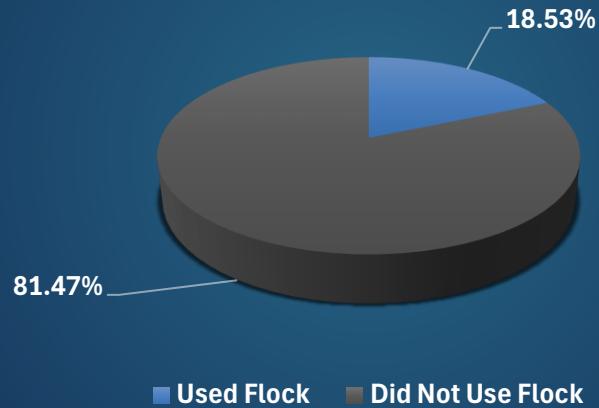

Chart 2A. Investigations That Used Flock (Total Overall).

## Investigations That Used Flock (September – October 2025)

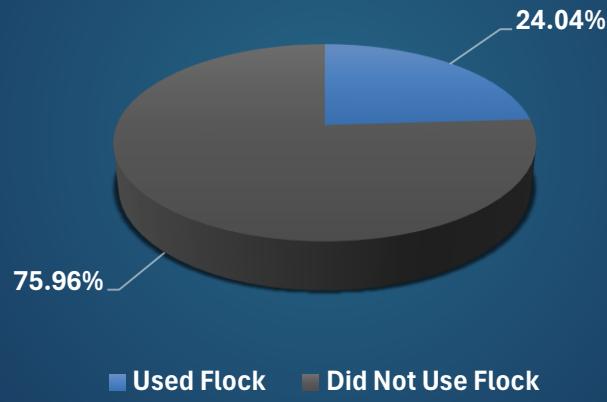

Chart 2B. Investigations That Used Flock (September – October 2025).

This section intentionally left blank

**Tables 4A and 4B, and Charts 3A and 3B** show how many of the investigations that used Flock stated what the outcome was:

Category	Qty.	%
Yes	115	32.49%
No (Insufficient Data)	239	67.51%
<b>Total</b>	<b>354</b>	<b>100.00%</b>

*Table 4A. Flock Outcome Stated in Reports (Total Overall).*

Category	Qty.	%
Yes	49	45.79%
No (Insufficient Data)	58	54.21%
<b>Total</b>	<b>107</b>	<b>100.00%</b>

*Table 4B. Flock Outcome Stated in Reports (September – October 2025).*

This section intentionally left blank

## Flock Outcome Stated in Reports (Total Overall)

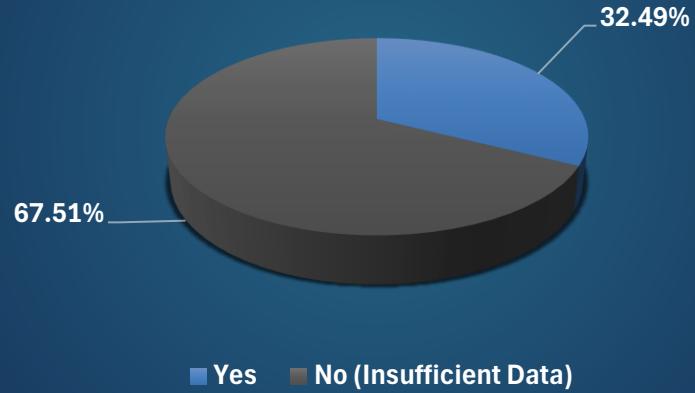

Chart 3A. Flock Outcome Stated in Reports (Total Overall).

## Flock Outcome Stated in Reports (September – October 2025)

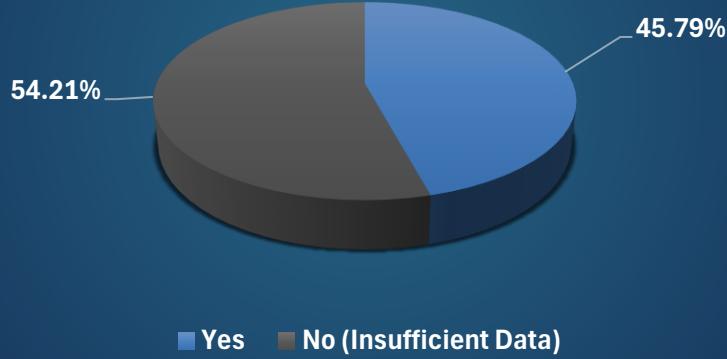

Chart 3B. Flock Outcome Stated in Reports (September – October 2025).

For the investigations that did not state the outcome of using Flock, while it can be presumed that Flock likely did not contribute to the investigation, there was insufficient documentation to confirm. Those unknowns are listed as "Insufficient Data" in **Tables 5A** and **5B**.

## ***Flock Outcome Categories***

Delving further, for the investigations that stated the outcome of using Flock, **Tables 5A** and **5B** and **Charts 4A** and **4B** show what the outcome categories were. These categories are described in more detail in the **Methodology** section of this report.

The “Insufficient Data” category is excluded from **Charts 4A** and **4B** in order to more closely examine known outcomes only.

Category	Qty.
Add To Custom Hotlist	6
Cleared by Arrest	16

This section intentionally left blank

**Charts 6A and 6B** below compare the total number of investigations undertaken by Woodburn Police in the given period (March 3, 2025 – November 11, 2025, for **Chart 6A**; or September 1, 2025 – October 31, 2025, for **Chart 6B**) to the number of investigations that used Flock and benefitted from it:

*Chart 6A. Summary: Flock Contribution to Investigations (Total Overall).*

*Chart 6B. Summary: Flock Contribution to Investigations (September – October 2025).*

# Other Metrics

## **Arrests, Stolen Vehicle Recoveries, and Drugs**

**Table 7** lists figures for the total number of arrests, recovered stolen vehicles, and quantities of drugs and/or paraphernalia items seized as a direct result of using Flock over the entire period that Woodburn Police had access to Flock cameras (March 3, 2025 – November 11, 2025). The “Approximate Value” listed for Recovered Stolen Vehicles is taken from the values listed in officers’ reports.

Category	Qty.
Arrests	16
Recovered Stolen Vehicles (Approx. Value: \$40,000.00)	9
Seized Fentanyl	2.1g
Seized Methamphetamine	15.5g
Other Residue/Paraphernalia Items Seized	2

*Table 7. Arrests, Stolen Vehicle Recoveries, and Drugs.*

## **What Criminal Offenses Were Successfully Investigated With Flock?**

**Chart 7** on the following page shows the criminal offenses that were successfully investigated with Flock over the entire period that Woodburn Police had access to Flock cameras (March 3, 2025 – November 11, 2025). The 81 investigations represented in the data were those to which Flock made a positive contribution (See: **Table 6B**, “Group A”). Of note, the total number of criminal offenses exceeds 81 due to the investigations involved listing more than one type of criminal offense on reports.

This section intentionally left blank

## Criminal Offenses Successfully Investigated with Flock

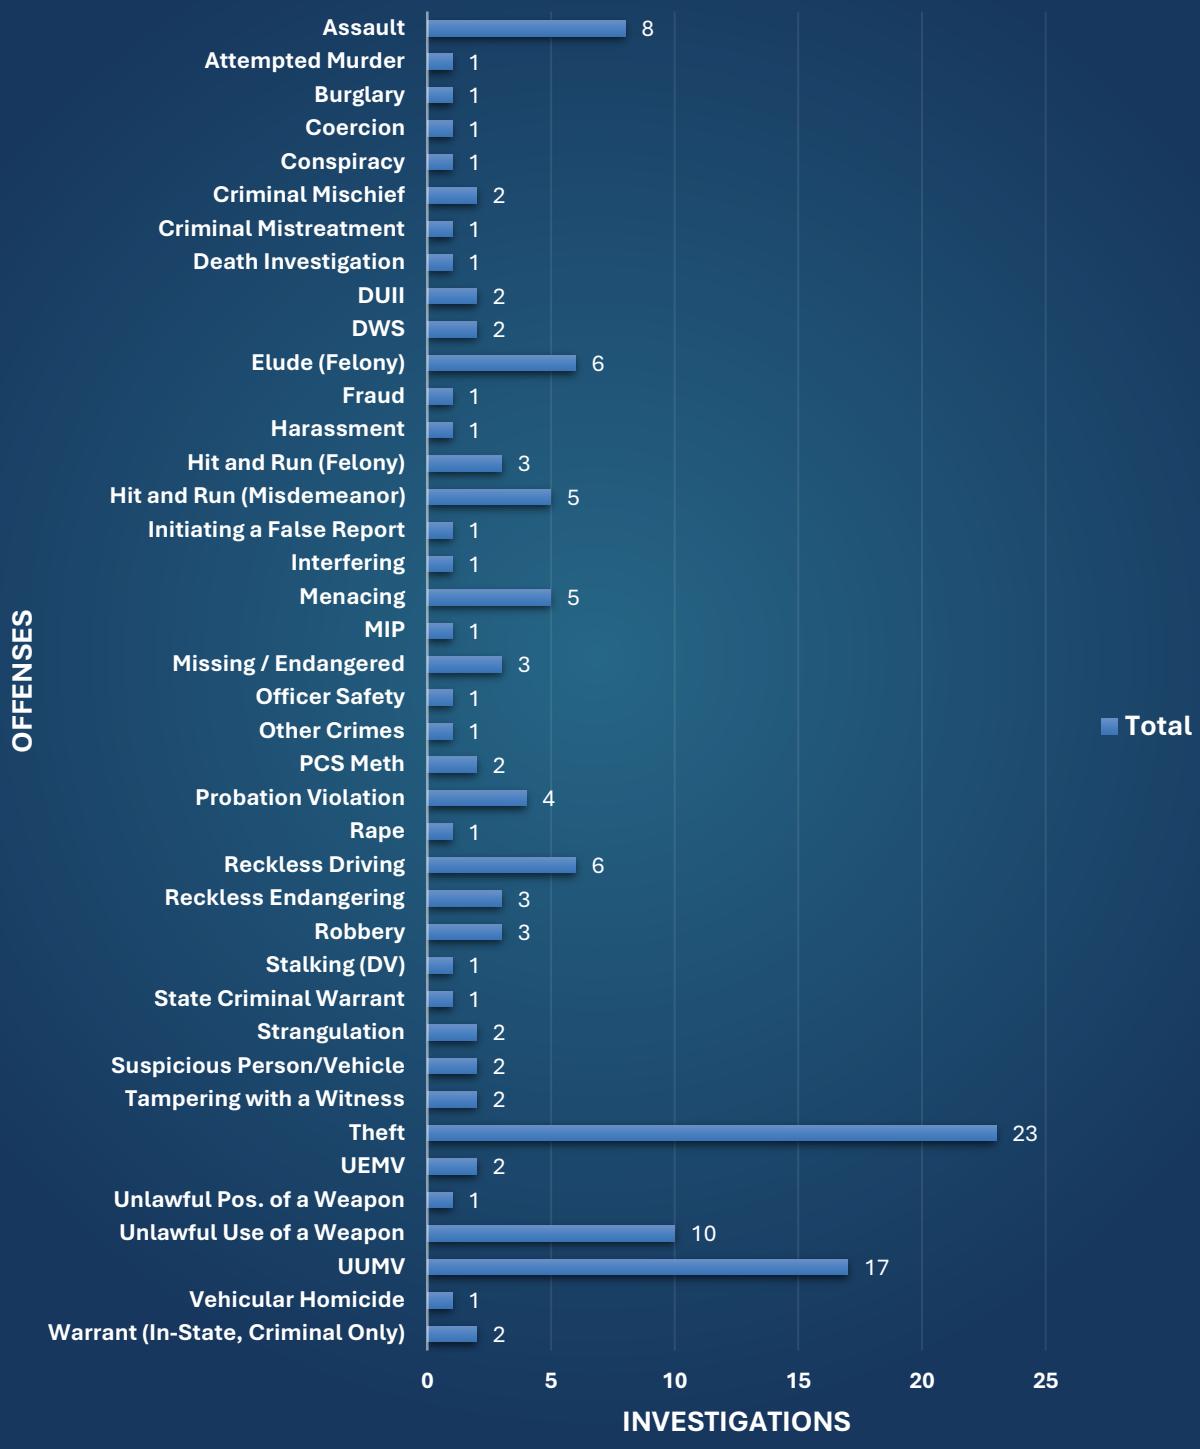

Chart 7. Criminal Offenses Successfully Investigated with Flock.

## **Who Benefitted From Flock in Woodburn?**

**Table 6B** and **Chart 5A** illustrated that Flock contributed to 81 investigations from March 3, 2025 – November 11, 2025. **Tables 8** and **9**, and **Charts 8** and **9** below show the demographics of victims whose investigations were aided by Flock.

A “business” victim listed in 15 reports was excluded from the tables and charts below.

The terms used in this section correspond to the federal classifications used by the Federal Bureau of Investigation (FBI) Uniform Crime Reporting (UCR), which are described in the **Methodology** section of this report.

Category	Qty.	%
Hispanic or Latino	39	68.42%

# Network Audit Review

## ***What's Included in the Flock "Network Audit"?***

The Flock "Network Audit" includes all search activity conducted on Woodburn's Flock camera system by Woodburn Police and by other agencies.

## ***How Many Searches "Touched" Woodburn's Flock Cameras?***

From January 15, 2025 – November 13, 2025, a total of 4734 different law enforcement agencies searched Woodburn's Flock network, including Woodburn Police. **Table 10** and **Chart 10** provide a breakdown of their searches by agency and search type.

Agency Type	Convoy Search	Search♦	Statewide, National Lookup	Visual Search	Combined	%
Oregon (Non-Federal)	13	10,519	15,216	13	25,761	0.78%
Out-of-State (Non-Federal)	0	587,394	2,699,374	0	3,286,768	99.04%
Federal	0	2,406	3,683	0	6,089	0.18%
<b>Total</b>	<b>13</b>	<b>600,319</b>	<b>2,718,273</b>	<b>13</b>	<b>3,318,618</b>	<b>100.00%</b>

Table 10. All Searches on Woodburn's Flock Cameras.

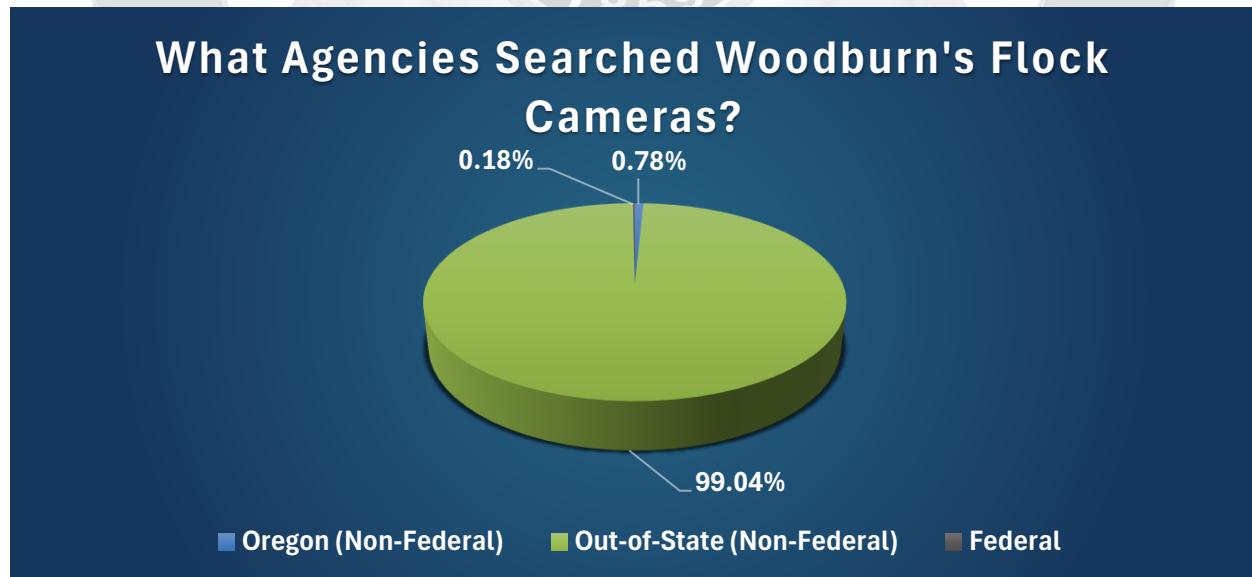

Chart 10. What Agencies Searched Woodburn's Flock Cameras?

## How Many Searches Returned Results?

Effective August 8, Flock provided the ability to isolate “Network Audit” data to only those searches that returned results on Woodburn’s network. Filtering data is shown in **Table 11**.

	Total Searches	Returned Results	% Returned Results	Woodburn Searches That Returned Results	% Woodburn Returned Results of Total Returned Results
January	184,747				
February	372,537				
March	395,230				
April	382,839				
May	359,145				
June	368,026				
July	370,896				
August 1-7	69,724				
August 8-31	209,155	775	0.37%	315	40.65%
September	324,102	1,077	0.33%	301	27.95%
October	281,002	825	0.29%	302	36.61%
November	1,215	297	19.64%	156	52.53%
<b>Total</b>	<b>3,318,618</b>				

Table 11. Searches That Returned Results.

## How Many Searches Targeted Woodburn?

As **Table 12** shows, Woodburn’s Flock network was almost never searched exclusively. Nearly all searches (99.99%) conducted on Woodburn’s Flock network were broad searches that also included one or more other law enforcement agency networks. Only 306 searches uniquely targeted Woodburn, and they were conducted by Eugene Police Department (OR), Springfield Police Department (OR), and Woodburn Police Department.

Networks Searched	Qty.	%
Woodburn Only	306	0.01%
2-99 Networks (Including Woodburn)	8,652	0.26%
100-309 Networks (Including Woodburn)	9,842	0.30%
310-7226 Networks (Including Woodburn)	3,299,818	99.43%
<b>Total</b>	<b>3,318,618</b>	<b>100.00%</b>

Table 12. Size of Search Nets.

## **What Reasons Were Given for Searches?**

Policies vary by agency regarding the criteria for the “reason” field of a Flock search. **Table 13** below summarizes the word length of search reasons provided by agencies for all searches done on Woodburn’s Flock network from January 15, 2025 – November 13, 2025.

Category	Qty.	%
Blank	971	0.03%
1-character (”, “w”, “b”, “2”, etc.)	56,886	1.71%
2-character (“ID”, “LE”, “Ts”, “99”, etc.)	218,604	6.59%
3-character (“inv”, “ATL”, “107”, etc.)	467,375	14.08%
4 or more characters (“murder suspect”, “narcotics”, “stolen vehicle”, etc.)	2,574,782	77.59%
<b>Total</b>	<b>3,318,618</b>	<b>100.00%</b>

*Table 13. Word Length of Search Reasons Provided for Searches.*

This section intentionally left blank

## Which Federal Agencies Searched Woodburn's Flock Cameras?

In 2025, Flock granted broad search capabilities to federal agencies during a trial period, beyond solely the National Lookup feature. No federal agency searches occurred after June 24, 2025, which likely coincided with the end of that trial period.

**Table 14** shows the federal agencies that queried Woodburn's Flock network and when. As **Table 12** showed, none of the searches conducted by federal agencies targeted Woodburn exclusively: they were broad searches that also included one or more other law enforcement agency networks.

Federal Agency Name	Qty.	Search Time Frame
ATF Louisville KY	491	01/17/2025, 01:40:47 AM UTC to 05/15/2025, 06:11:14 PM UTC
ATF Nashville TN	2998	01/16/2025, 02:49:53 PM UTC to 04/28/2025, 01:15:01 AM UTC
Homeland Security Investigations	175	03/10/2025, 08:39:11 PM UTC to 05/01/2025, 06:57:15 PM UTC
Lake Mead NV NRA	9	03/03/2025, 02:44:03 AM UTC to 06/23/2025, 03:55:38 AM UTC
Langley VA Air Force Base	58	01/21/2025, 01:43:59 PM UTC to 05/14/2025, 12:09:40 PM UTC
Naval Criminal Investigative Service	157	01/16/2025, 02:03:57 PM UTC to 04/04/2025, 10:21:38 AM UTC
Roudebush Medical Center IN Veterans Affairs PD	3	03/12/2025, 03:30:55 PM UTC to 03/12/2025, 03:50:58 PM UTC
US Border Patrol	209	05/09/2025, 03:10:25 PM UTC to 06/23/2025, 12:50:08 PM UTC
US GSA Office of Inspector General	74	02/12/2025, 05:08:34 PM UTC to 03/26/2025, 01:54:03 PM UTC
US Postal Inspection Service	1908	04/03/2025, 07:59:52 PM UTC to 06/24/2025, 06:43:59 PM UTC
Wright Patterson OH Air Force Base	7	01/29/2025, 06:07:12 PM UTC to 04/23/2025, 07:47:21 PM UTC

Table 14. Federal Agency Searches.

A complete list of searches conducted by Homeland Security Investigations and US Border Patrol will be compiled and attached as **Addendums** to this report. A compilation of all non-federal agencies that used the search term “immigration” as a search reason will also be attached as an addendum.

# Trends in Reported Crime

## Year-to-Year Comparison: March-October (2024, 2025)

**Table 15** and **Charts 11** and **12** compare reported felony and misdemeanor offenses in 2025 for the period that Flock was available to Woodburn Police officers (March-October), to the same time period in 2024. November is excluded from the comparison due to the disabling of Woodburn's Flock system partway through the month.

	Misdemeanors 2024	Misdemeanors 2025	Felones 2024	Felones 2025
March	210	182	87	87
April	219	165	105	79
May	181	206	71	71
June	184	155	109	92
July	129	172	79	70
August	161	181	87	56
Sept.	209	184	82	73
October	181	171	73	53
<b>Total</b>	<b>1,474</b>	<b>1,416</b>	<b>693</b>	<b>581</b>

Table 15. Felonies and Misdemeanors Reported: March-October (2024, 2025).

## Felonies Reported: March-October (2024, 2025)

Chart 11. Felonies Reported: March-October (2024, 2025).

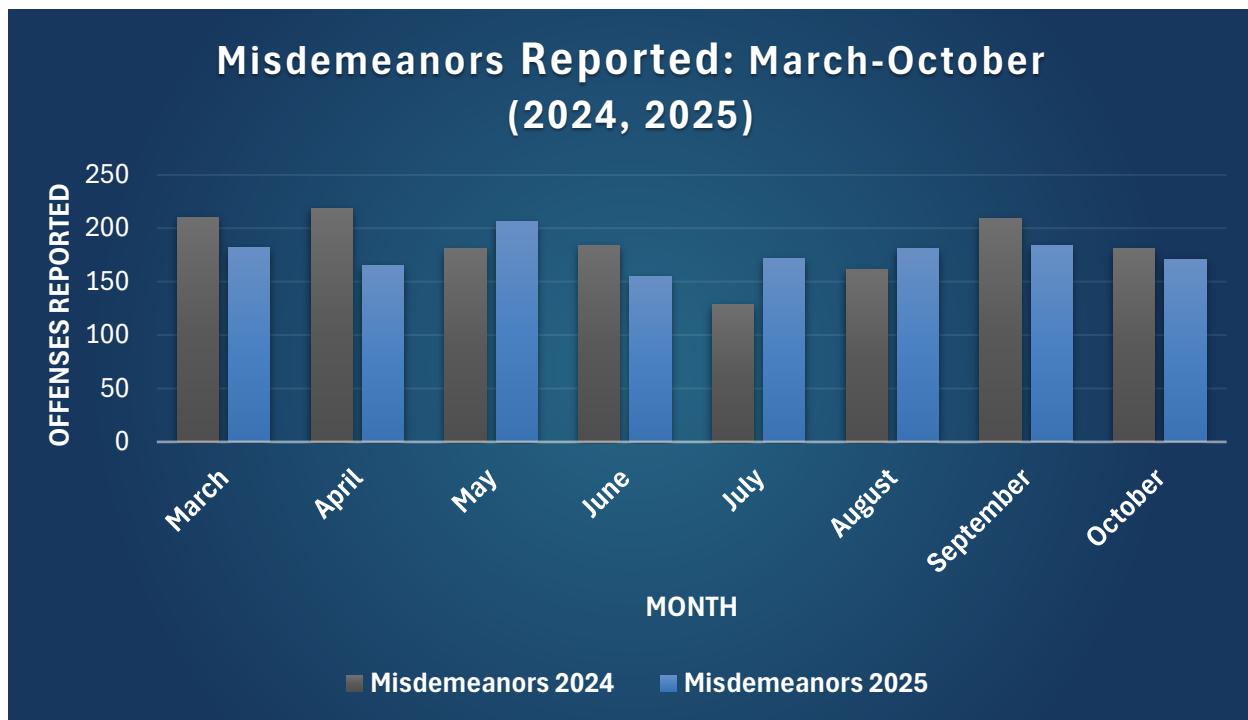

Chart 12. Misdemeanors Reported: March-October (2024, 2025).

### Year-to-Year Comparison: Year-End Totals

Tables 16 and 17, and Charts 13, 14 and 15 show year-end totals for the volume of calls for service and investigations, along with the number of reported felony and misdemeanor offenses for 2024 and 2025. Most calls for service do not become full investigations. Accordingly, the number of investigations each year is significantly smaller than the volume of calls for service.

	2024	2025	% Change
Calls for Service	16,199	16,209	0.06%
Investigations	3,042	2,710	-10.91%

Table 16. Calls for Service and Investigations: Full Year (2024, 2025).

	2024	2025	% Change
Reported Misdemeanors	2,292	2,137	-6.76%
Reported Felonies	1,050	852	-18.86%
Total Criminal Offenses	3,342	2,989	-10.56%

Table 17. Reported Crimes: Full Year (2024, 2025).

# Success Stories

The following are examples where the use of Flock or an out-of-state ALPR system made a direct, significant contribution to an investigation:

## ***Custom Hotlist Alerts (Real-Time Flock Alerts)***

### **4 Woodburn Investigations – Cleared by Arrest**

*Assault II, Elude (Felony), Hit and Run (Felony), Menacing, Parole Violation Warrant for Robbery 1, Reckless Driving, Recklessly Endangering Another Person, Stalking (Misdemeanor), Tampering with a Witness*

A suspect drove over his ex-girlfriend with his car and had been evading arrest for six months, engaging in multiple felony eludes with police for crimes that spanned several investigations. Officers entered the suspect's vehicle into Flock. Woodburn's Flock cameras alerted to the suspect vehicle, which directly lead to a pursuit and finally an arrest, closing out several open investigations.

### **Woodburn Investigation – Cleared by Arrest**

*Assault II, Criminal Mischief II, Robbery I, UEMV, Unlawful Use of a Weapon*

The suspect, the father of the victim's child, severely assaulted the victim and stole her cell phone. Woodburn Police entered the suspect vehicle's license plate into Flock for investigative interest. Woodburn's Flock system alerted to the vehicle, and officers located it in the drive through line of Dutch Bros. The use of Flock directly lead to the location of the suspect, apprehension, and arrest.

### **Woodburn Investigation – Cleared by Arrest**

*PCS Fentanyl, PCS Meth., UUMV*

Woodburn's Flock cameras alerted to a stolen vehicle driving toward the Woodburn Premium Outlets. Officers located and stopped the vehicle. The driver was arrested for UUMV and drug possession charges.

### **Woodburn Investigation – Cleared by Other Means**

*UUMV*

Woodburn's Flock cameras alerted to a stolen vehicle entered by the Marion County Sheriff's Office. The vehicle was located and recovered within 15 minutes.

### **Woodburn Investigation, 2 Salem Investigations – Cleared by Other Means**

*Criminal Trespass I, Criminal Mischief II, UUMV*

Woodburn's Flock cameras alerted to a stolen vehicle out of Salem. Woodburn officers conducted a high-risk traffic stop, recovered the vehicle, and developed a potential suspect for the original theft.

### **Hubbard Investigation – Cleared by Arrest (Hubbard PD)**

*PCS Oxycodone, UUMV*

Woodburn's Flock cameras alerted to a stolen vehicle heading northbound on N Pacific Hwy., towards Hubbard. Woodburn Police relayed the information to Hubbard Police. Hubbard PD then located the vehicle and initiated a high-risk traffic stop. The driver was arrested for UUMV and PCS Oxycodone.

## ***Criminal Investigations Using Historical Flock Data***

### **5 Woodburn Investigations – Warrant Issued**

*Conspiracy, Organized Retail Crime, Theft I (Shoplifting)*

Officers investigated a shoplifting ring at Nike involving multiple connected investigations. By using Flock, the case officer obtained a license plate for the suspect vehicle. After tracing back vehicle ownership, the officer directly identified the suspect and her two associates. Flock lead to the request of warrants for all three suspects, clearing multiple shoplifting investigations.

**Woodburn Investigation – Cleared by Other Means***Hit and Run (Misdemeanor), Criminal Trespass II*

The victim reported a suspicious person parking in his driveway, trespassing on his property, taking photos of his house, and damaging his vehicle. Using Flock, officers were able to locate the vehicle, obtain a license plate, and then identify suspect information from the vehicle registration. The suspect's identity was later confirmed due to the lead from Flock. From the investigation, the "trespasser" was determined to have been there for a legitimate purpose.

**Woodburn Investigation – Cleared by Arrest***Fraudulent Use of a Credit Card (Felony), Theft I, UEMV*

A victim's vehicle was entered, her property was stolen, and her stolen credit cards were used by suspects to make purchases at various retailers. The case officer obtained a partial license plate from Walmart video surveillance. Using Flock, the officer was then able to obtain the full license plate and from the vehicle registration, identify a potential male suspect. An initial investigation revealed a connection to Salem, and the case officer contacted Salem Police Department to request a scan of their LPR system. Salem Police Department located the vehicle on their LPR system, which also showed a female passenger with the male suspect. By investigating associates, the case officer was able to confirm the identities of both the male and female suspects, leading to a warrant request. The male suspect was later located and arrested.

This section intentionally left blank

**Woodburn Investigation – Cleared by Arrest**

*Criminal Mischief I, Elude (Felony), Hit-and-Run (Misdemeanor), Interfering, Probation Violation, Reckless Driving, Resisting Arrest*

A suspect failed to perform the duties of a driver after crashing into another vehicle. The victim provided officers with the suspect vehicle description, and Officers located it at an apartment complex, along with the suspect. The suspect then eluded in his vehicle, ultimately crashing it a second time into a tree farm before fleeing the scene. Meanwhile, officers at the scene of the original crash located the suspect vehicle and license plate in Flock, which corresponded to the time and place of the crash, and the license plate matched the crashed vehicle at the tree farm. The suspect's identity was confirmed from the vehicle registration. A K9 track and drone deployment were undertaken to search for the suspect, but the suspect had returned to his home residence. The suspect was taken into custody.

**Woodburn Investigation – Lead Generated**

*Theft (Lost/Mislaid Property)*

A subject left their father's cell phone in a shopping cart at the Dollar Tree. The victim confronted a female suspect, who denied taking the phone, but the victim was able to obtain a license plate for her vehicle. The case officer searched the license plate in Flock and located the suspect vehicle at Walmart, where he was able to then obtain additional surveillance footage of the suspects.

**Woodburn Investigation – Lead Generated**

*Menacing, Unlawful Use of a Weapon*

A suspect menaced a subject with a firearm. After interviewing the victim, officers were able to locate the suspect vehicle on Flock and obtain a license. From the vehicle registration, the case officer obtained a potential suspect name and photo. The case officer then completed a photo-lineup with the victim, and the suspect was identified as the same one from the Flock camera investigation. The case was forwarded to the Marion County District Attorney's Office for review.

### **Woodburn Investigation – Cleared by Other Means**

#### *Rape I*

A sexual assault investigation was completed. After interviewing the victim and obtaining a suspect vehicle description, the case officer searched Flock and was able to locate the vehicle and license plate. From the vehicle registration, the officer located a photo of the suspect, and completed a photo throw-down with the victim. The suspect was successfully identified, however the victim elected not to pursue charges at the time.

### **Woodburn Investigation – Lead Generated**

#### *Theft II (Shoplifting)*

A suspect stole a vehicle battery from AutoZone. The case officer canvassed the area for video surveillance and located the suspect vehicle. Using the date and time of the theft and the vehicle description, another officer was able to locate the vehicle on Flock Safety cameras and obtain a license plate, creating a lead.

## ***Investigation Assistance From an Out-of-State Agency***

### **Woodburn Investigation – Cleared by Arrest**

#### *Online Sexual Corruption of a Child I, Rape III, Sodomy I*

A 28-year-old adult male solicited sexual contact from a 14-year-old runaway juvenile victim online, and then met with and sexually assaulted the victim. A crime analyst in Coeur D'Alene, Idaho, helped confirm suspect's traffic patterns and presence in Kent, Washington, via the use of their own LPR system, despite the suspect removing his ankle monitor. Inter-agency cooperation and the use of LPR systems lead to a guilty plea and a 17-year federal sentence, plus lifetime supervision.

**This section intentionally left blank**

### **Woodburn Investigation – Lead Generated**

*Hit and Run (Felony)*

A suspect failed to perform the duties of a driver after impacting a pedestrian, resulting in death of the victim. Woodburn Police reached out to other police agencies to request assistance with locating the suspect vehicle. Hillsboro Police Department located the suspect vehicle on their network of shared cameras, on a Motorola Vigilant LPR system in Idaho. The out-of-state LPR network in Idaho confirmed the suspect vehicle's direction of travel, which after suspect interviews lead to the successful location of the suspect's vehicle at a property owned by the suspect in Minnesota. A successful search warrant was completed on the vehicle. The case is actively being prosecuted.

### ***Criminal Investigation From a Federal Agency***

#### **Woodburn Investigation – Lead Generated**

*AOA for FBI Task Force (Drug/Weapons Investigation)*

An FBI Task Force officer requested assistance with a criminal investigation involving drugs and weapons. WPD drove by the location and successfully located the vehicle under investigation, obtained its license plate, and scanned Flock to obtain additional photos of the vehicle. The information obtained was provided to the FBI.

**This section intentionally left blank**

## ***Additional Flock Use Cases***

### **Woodburn Investigation – Cleared by Arrest**

#### *Initiating a False Report*

Early in the morning, a subject reported his vehicle was stolen. Woodburn officers obtained vehicle information and entered it into LEDS as a stolen vehicle. A search was done in Flock at the time of the initial report but the vehicle was not seen driving past any Woodburn ALPR cameras.

Later in the day, Portland Police Bureau notified Woodburn Police that the stolen vehicle was recovered with significant damage, and only one license plate. The timing of the recovery, the vehicle's apparent direction of travel, combined with the vehicle's absence from Flock, revealed inconsistencies in the subject's report. When confronted, the subject admitted to making a false report, and was arrested.

**This section intentionally left blank**

# Missed Opportunities

The following are examples where the deactivation of Flock hindered an investigation:

## **Woodburn Investigation**

### *Runaway*

A runaway juvenile remained missing for over a month before she was located. The juvenile was believed to be staying with an adult male, and officers had a vehicle description and possible license plate for his vehicle, but were unable to track or locate the vehicle without ALPR cameras.

## **Woodburn Investigation**

### *Murder, Unlawful Use of a Weapon*

The disabling of Flock two weeks prior to this homicide incident meant that the suspect vehicle in the shooting could not be quickly located or identified, which delayed the investigation.

## **Woodburn Investigation**

### *Assault II, Assault IV*

A suspect assaulted a female victim, hitting her in the head and throwing her to the ground, rendering her unconscious, and pushed a second victim to the ground. Witnesses gave responding officers the suspect's vehicle description, but officers were unable to track the vehicle or locate the suspect without ALPR cameras. The vehicle later returned to the residence but the suspect was not located. A warrant was requested.

**This section intentionally left blank**

### **Woodburn Investigation**

*Assault IV (Felony), Harassment, Interfering*

A male suspect assaulted a female victim. From call history, officers had a suspect vehicle description and license plate, but were unable to track the vehicle or locate the suspect without ALPR cameras.

### **Woodburn Investigation**

*Criminal Mischief I, Harassment, Menacing, Robbery I, Strangulation, Theft I*

Five suspects committed armed robbery of a Woodburn massage parlor, menacing victims with a machete and handgun, strangling one of the victims, and damaging and stealing property. The suspects committed similar crimes in other jurisdictions. Woodburn officers obtained video of the suspect vehicle but were unable to obtain a license plate or track the vehicle without ALPR cameras. Tualatin Police Department ultimately arrested one of Woodburn's suspects and recovered the suspect vehicle.

### **Woodburn Investigation**

*Hit and Run (Felony)*

A high school student was hit by a vehicle in downtown Woodburn and sustained injuries. City surveillance cameras captured the suspect vehicle, but the footage was not clear enough to identify the license plate. The absence of ALPR cameras delayed officers from locating the vehicle.

### **Woodburn Investigation**

*Robbery I (Car Jacking)*

OSP followed a vehicle that had been stolen in Salem during an armed car jacking. The suspect vehicle came into Woodburn, and OSP lost sight of it. Woodburn officers were unable to track or determine its location of travel without ALPR cameras.

**Woodburn Investigation***Hit and Run (Felony)*

A pedestrian was hit by a vehicle in a crosswalk, sustained injuries, and lost consciousness. Without ALPR cameras, officers were unable to identify the suspect vehicle, and canvassing for local cameras produced no results.

**Keizer Investigation***Assault IV (DV), Menacing, and Strangulation (Felony)*

Keizer Police Department had probable cause to arrest a suspect for Assault IV (DV), Menacing, and Strangulation (Felony), who also had caution-coded warrants and a history of resisting arrest. The suspect was known to be associated with the Wooburn area with a known vehicle and license plate. Without ALPR cameras, Woodburn officers were unable to track or locate the suspect, who was ultimately located and taken into custody on Keizer's own ALPR system.

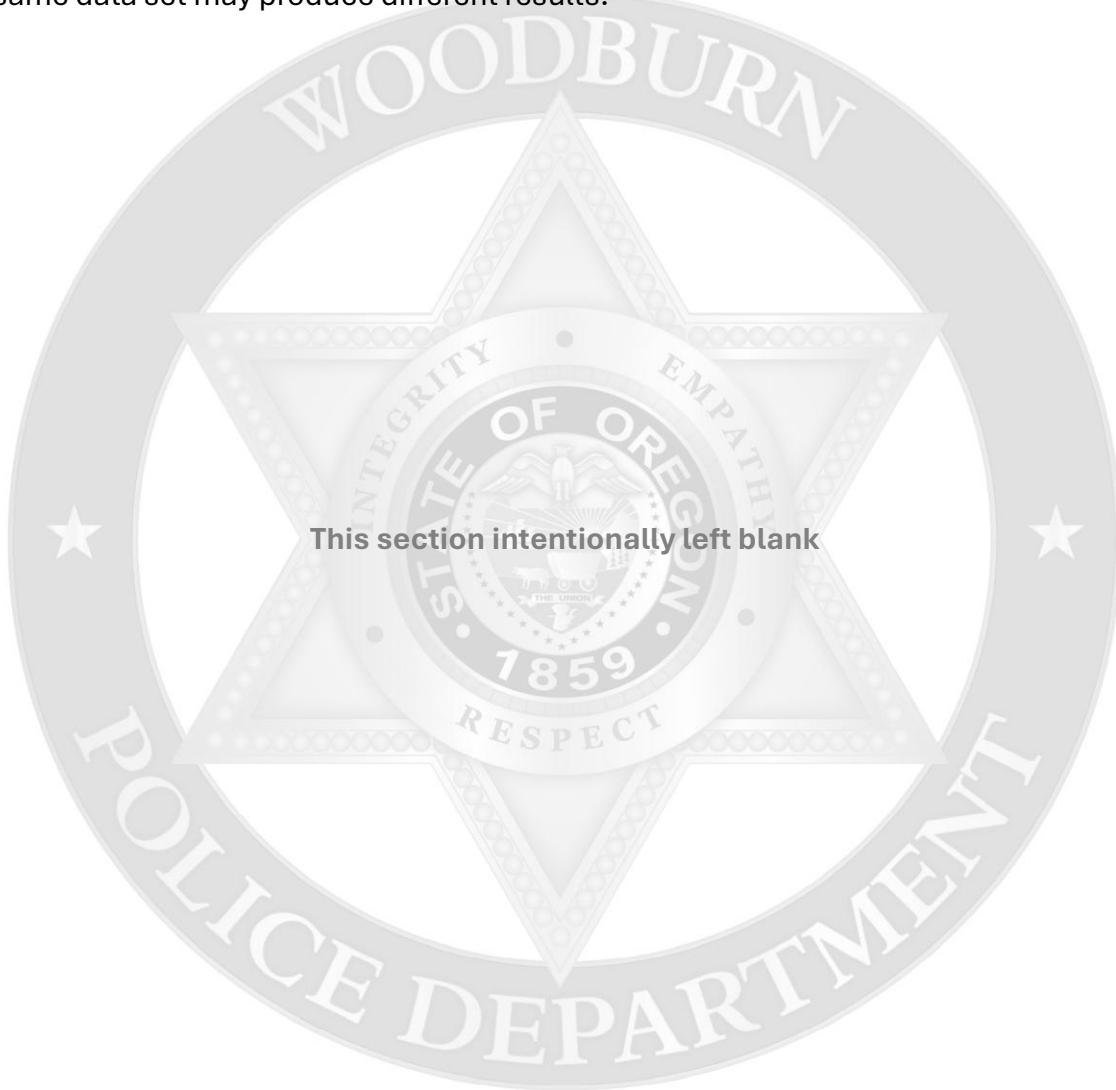

**Woodburn Investigation***Robbery/Theft*

A robbery occurred at AutoZone. Officers had video, a description of the suspect vehicle, and a direction of travel. ALPR cameras could have generated leads on the vehicle and suspect.

# Disclaimer

The information included in this report is a snapshot of data that is dynamic in nature. Factors that can cause changes in data include court orders to set aside and seal records, juvenile expunctions, the time a query is run (i.e. in the middle of the month, versus in the following month), and the evolutionary nature of investigations. Subsequent queries run on the same data set may produce different results.

# Addendums

## **What's Included?**

The following section includes the addendums referenced in the **Which Federal Agencies Searched Woodburn's Flock Cameras?** section of the **Network Audit Review:**

**Addendum 1:** US Border Patrol Searches on All Flock Networks (January 15, 2025 – November 13, 2025)

**Addendum 2:** Homeland Security Investigations Searches on All Flock Networks (January 15, 2025 – November 13, 2025)

**Addendum 3:** Non-Federal Agencies that Used "Immigration" as a Search Reason - All Flock Networks (January 15, 2025 – November 13, 2025)

This section intentionally left blank
