**REVISIONS TO TECHNICAL SPECIFICATIONS:**

Revise Section 32 30 00: MOBILIZATION/DEMobilIZATION as follows:

Delete the first two sentences of section **1.2 SITE ACCESS AND SECURITY**

Add, at the end of the existing paragraph, the following sentences:

“For bidding purposes, assume that the site access is through Centennial park towards the easterly side of the park, utilizing existing asphaltic concrete pathway as necessary, which will need to be restored to its original condition after completion of the project. If it is determined that a more robust access road is required through Centennial Park, then these additional costs for a separate access road will be handled through a project change order.”

Revise Exhibit “A” Site Map as follows:

Delete all references to and delineations of “Access Road”
